1. The first part of the report deals with the general situation in the country and the progress of the work done during the year. It is divided into two main sections: (a) the general situation and (b) the progress of the work done during the year.

2. The general situation in the country is described in the first section. It is noted that the country has made considerable progress in the field of education and health services. The number of schools and hospitals has increased significantly, and the quality of the services provided has improved.

3. The progress of the work done during the year is described in the second section. It is noted that the work has been carried out in accordance with the plan and that the objectives have been largely achieved. The main achievements are: (a) the completion of the first phase of the educational reform, (b) the establishment of a new health service, and (c) the improvement of the financial situation of the country.

4. The report concludes by stating that the work done during the year has been successful and that the country is well placed to continue its progress in the future. It is recommended that the government should continue to support the work done and to take steps to improve the financial situation of the country.
