ANNUAL GENERAL MEETING

Notice is hereby given that the Annual General Meeting of the Incorporated Surrey Archaeological Society will be held at 2.00 p.m. on Saturday, 29th November, 1980, in the Central Lecture Theatre Block at the University of Surrey, Guildford. There is an adjacent car park (No.1 East). The Annual General Meeting will be followed by a lecture given by our Honorary Vice-President Mr A. R. Dufty, CBE, RIBA, FSA.

Agenda for Annual General Meeting

1. To receive apologies for absence.
2. To read, and if appropriate, to sign as correct the minutes of the meeting of 3rd November, 1979.
3. To receive and consider the Annual Report, the Statement of Accounts, and the Auditor’s Report for the period 1st April, 1979, to 31st March, 1980, and, if approved, to adopt them. (These will be distributed with the November Bulletin).
4. To elect the President for 1980-81.
5. To elect Honorary Vice-Presidents for 1980-81.
6. To elect Vice-Presidents for 1980-81.
7. To elect Honorary Officers for 1980-81.
8. To elect six Ordinary Members of Council to retire in 1984 under article 21a.
   Nominations have already been received in respect to Mr. F. A. Hastings.
   (Nominations for election under items 4-8 should be sent to the Secretary not less than seven days before the meeting. All nominations require a proposer and seconder who must be members of the Incorporated Society and nominations must be accompanied by a signed statement by the nominee of his or her willingness to stand for election. Institutional members are not eligible for election.)
10. Any other business.

The Honorary Secretary and Treasurer have both resigned. Any member who would be prepared to help the Society by volunteering for either of these offices, or assist in their work, should write to The Secretary, Castle Arch, Guildford, GU1 3SX.

LECTURE

The Annual General Meeting will be followed at about 2.30 p.m. by a lecture entitled

William Morris and Kelmscot
By Mr A. R. Dufty, CBE, RIBA, FSA.
EXCAVATION NOTICES

EPSOM: 106/110 High Street (TQ 20706075)
Further work in Epsom on the above site is to take place on weekends between 13th September and 26th October. It is hoped to record the extent of the 16/17 structures previously fronting the High Street before development begins. All volunteers will be most welcome as there is this limited period available for work. Please contact S. Nelson, 1 Bridge Road, Epsom, Surrey. Epsom 40800 (evenings).

Steve Nelson

SAS VISITS

The Visits Committee are anxious to recruit new members with ideas and the willingness to arrange a visit. Also owing to the resignation of Mr D. Booker for domestic reasons a Treasurer is needed. Will anyone interested please get in touch with me.

Joan Major

3 Riversdale Road, Thames Ditton, K17 0QL

Visit to Blenheim Palace and estate

Although the Visits Committee have had to cancel their planned outing in October, there will be a visit on Sunday, October 19th to Blenheim organised by the Surrey Industrial History Group. The reason for the visit on this particular day is that apart from the very crowded Bank Holidays, this Sunday is the sole opportunity for seeing another part of the estate—Combe Mill, a beautiful riverside site where there has been a mill since the Domesday Book. It contains a fully working steam beam engine of 1852, driven by possibly the oldest working boiler in the country, together with much other working machinery and a blacksmith busy at the forge. (The admission charge is 40p for adults, 20p for children). After seeing this we shall move on to the Palace itself, one of the most famous and most imposing buildings in the country built by Vanburgh and associated with the Churchills. The grounds are by Capability Brown. Admission charge—£1.20 adults, 50p OAPs, 70p children.

Our coach will leave Guildford Park Road car park in Guildford (near the rear entrance of the main railway station) at 9 a.m. Seats £2 per person, to be booked from me not later than October 15th, Francis Haveron, (Hon. Sec., S.I.H.G.), 5 Hillcourt, Ballfield Road, Godalming, Surrey, GU7 2HD. Telephone Godalming 7325.

New Members (from June 1980)

Mr J. A. Archer, 17 Blackstone Hill, Redhill, RH1 6BE.
Biblioteca Nazionale Centrale, Vittorio Emanuele II, 00100 Roma, Italy.
Mr P. A. Coleman, 6 Trentham Crescent, Kingfield, Woking, GU22 9EW.
Mr and Mrs R. F. Farmer, 12 Hillside Court, Harvey Road, Guildford, GU1 3NA.
Mr R. J. Gunningham, 1 Annandale Road, Guildford, GU2 5LR.
Miss K. Knee, Haldene Close, Guildford.
Mr G. Lewis, 38 Broadway, Knaphill, Woking, GU21 2DT.
Mrs. V. Lynch, M.A., 11 Telford Court, Clandon Road, Guildford, GU1 2TG.
University of Adelaide, Barr Smith Library, Box 498, G.P.O., Adelaide, South Australia 5001.
Mr J. W. Ward, South Lodge, Albury Park, Guildford, GU5 9DF.
NOTES AND QUERIES

KINGSTON: HORSEFAIR SITE—Preliminary investigations

Initial work, by Kingston Archaeological Society for the Museum, on this large development site in the town centred on a 7m sq trench at the bottom of Old Bridge Street adjacent to the site of the old Kingston bridge has revealed the following: A certain amount of disturbance by 19th century buildings, seen on old photographs of this “backlanes” area of the town, was encountered. An H-shaped brick chimney stack was evidence of a 17th century building beneath which a series of gravel surfaces sandwiched much 16th and early 17th century material. These extended down to about 1m below modern road level (6.8m OD). At this level a complex deposit of intermixed ash, burnt clay and gravel spreads concentrated towards the street frontage and contained 12th-early 14th century material. This phase was difficult to interpret but is presumably the result of rubbish disposal and light transient activities on a river bank area over a period of time. Beneath these deposits a “dirty” loose gravel graded into a “clean” sharp yellow/ginger gravel sloping unevenly from 7.5-8m OD towards the modern river and would seem to indicate a river bank or beach at this level in medieval times. From the “dirty” gravel, which was almost barren of finds, came a single handle sherd of Stamford ware of 12th or perhaps early 13th century date and immediately over this was recovered a Rhinelander blaugrau ladle handle of similar date. These significant non-local products are the first to be recognised as such from the town. This point in Old Bridge Street would thus appear to have become dry land sometime towards the end of the 12th century. More intensive work is now expected along the medieval street, on the site of the foundations of the old bridge and on the suspected late medieval under-croft at the opposite end before development commences.

Steve Nelson

LAMBETH: St. Mary’s Church, Lambeth Road (TQ 306790)

In advance of contractor’s work, a small trench (9 x 1m) was excavated in the churchyard, in the angle between the chancel and the north aisle. The trench was excavated to a depth of 1 to 2m where the ground was to be disturbed, and only layers of dumping of recent date were found, although these contained a few sherds of medieval pottery.

Robin Densam for S & L Arch. Comm.

LAMBETH: 126-62 Westminster Bridge Road, 4-10 Lower Marsh and 20-20A Murphy Street, (TQ 313794)

Excavation began in late 1979.

Prehistoric and Roman: The small area so far examined has produced no evidence for either the westward continuation of Watling Street from its junction with Stane Street in Southwark, or for the road thought to run from London Bridge to a Lambeth ford. A number of prehistoric flints, including one well-made transverse arrowhead, and a small amount of Roman pottery have been found in later contexts.

Medieval and later: A number of shallow trenches have been discovered, some of which may be of medieval date. They were overlain by a layer, probably of plough soil, of post-medieval date. It is hoped that information about the origin and nature of the settlement at Lambeth Marsh may be provided by the site.

Robin Densam for S & L Arch. Comm.
REIGATE: Coin Hoard
The discovery of this coin hoard in 1972 was reported by Bird and Turner (Sy. A.C. 70 (1974)) and its pottery container described. The hoard itself (deposited c.1454-55) has now been fully analysed and published by Miss Marion M. Archibald of the British Museum in The British Numismatic Journal 48 (1978), 80-97. The container and one or two of the latest coins from the hoard are held by Guildford Museum.

D. J. Turner

SOUTHWARK: Arcadia Buildings (TQ 32527966)
Roman: Further investigation of Roman Watling Street showed it to have been 12m wide and heading 35° west of north. The road metalling survived in one place to a height of .90m and was made up of twelve separate gravel surfaces. Underlying the road was a channel, probably natural, 5.50m wide and .90m deep running only 5° from parallel with the road. A double layer of timbers had been laid in the bottom and locally quarried sand was dumped on top to fill the channel and make a cambered sub-base for the road, .40m high. Pressed into the ground surface 1m from the edge of the road was a bronze buckle from a legionary type of loricà segmentata, body armour. Two phases of buildings were found on the north-east side of the road. The earlier, c.A.D. 50-70, had evidence of metalworking with a simple bowl furnace and a number of crucibles, probably used in the manufacture of small cast bronze and brass objects. The later phase survived until about the middle of the second century and associated with it was a wood-lined well and a cesspit. A small clay oven suggested domestic use of the building at first, but the latest floor surface showed evidence of iron working with a hearth and, around it, a scatter of iron slag and nails.

Martin Dean for
S & L Arch. Comm.

SOUTHWARK: 170-194 Borough High Street (TQ 32427982)
This large redevelopment site lay within the Roman and medieval settlement and to the west of the north-south Roman road running to a river crossing at London Bridge. In the later medieval period it was the probable location of Suffolk Place, a residence of the Brandon family, Dukes of Suffolk, which was purchased by Henry VIII and used by members of the royal family. Regrettably the developers of the site allowed only 10 days, in September 1979, for archaeological work. During this period several contractor's trenches were observed and an area of 6 x 3m at the north-east corner of the site was excavated.

Roman: The surviving top of natural gravel varied between +.20 and −.85m O.D. and had been cut by a wide channel. This had silted up and the area had become marshy by the later first century A.D. An iron strigil was found in the upper layer of channel fill. In the excavated trench were found 52 timber stakes, possibly foundations for a building or jetty, which had been driven into the marsh, probably in the late first century. The stakes and channel were covered by layers of dumped earth and domestic refuse of early-mid-second century date which contained much building material and may have been spread to prepare the ground for buildings. The dumped deposits were truncated here by modern cellar floor, but elsewhere on the site were overlain by dark earth similar to a late-post-Roman deposit thought to have an agricultural origin and found on many Southwark sites.
Late-post-medieval: One of the contractor's trenches cut through a substantial brick foundation, possibly of Tudor date, which may have formed part of Suffolk Place. In the excavated area, a number of post-medieval features were found including a barrel-lined pit which contained eighteenth century material and a pewter cup.

Laura Schaaf for
S & L Arch. Comm.

SOUTHWARK: 218/224 Borough High Street (TQ 32347966)
A trial excavation was begun in mid-October 1979 under the cellars of 220 Borough High Street. The site lies approximately 130m west of the suggested junction of Roman Stane and Watling Streets.
Late-post-medieval: Post-medieval cellars had been dug into the natural sand to c. + 1.70m O.D. across most of the excavated area. As yet there is no evidence of Roman features cutting the natural sand, though what may have been a late medieval ditch was found at the western end of the site. A red-tiled cellar floor, probably of eighteenth century date, was overlain by dumped deposits which were cut by nineteenth century pits. One of these, a circular brick-lined structure, contained crockery personalised for Hinton's Eating House, which, according to documentary evidence, had been established on the site by 1832. Above these features lay a twentieth century cellar floor.

Eric Ferretti for
S & L Arch. Comm.

SOUTHWARK: Harper Road (TQ 32467945)
Following excavations in 1977 when a fourth century burial and ditch were discovered, a further small-scale investigation was undertaken in 1979.
Roman: A second inhumation was found with associated iron nails, probably the remains of a wooden coffin. The skeleton was that of a woman, 5ft. 2in. tall and aged about 35, lying with her head to the south-west. A mid-first century date was indicated by a Hofheim-type flagon alongside the head, while at the feet were an engraved bronze neck ornament and a square bronze mirror. A short section of a fourth century ditch, at 90° to the alignment of that found in 1977, suggested division of the area into a field system.

Martin Dean for
S & L Arch Comm.

SOUTHWARK: Hibernia Wharf (TQ 32568035)
Excavation of the south-west part of this large redevelopment, which lies between Southwark Cathedral and the Thames, began in July 1979.
Roman: The area was fairly extensively quarried for gravel in the later first century A.D., possibly to provide metalling for the postulated road from London Bridge to Lambeth, which was previously excavated c. 50m east of the site. The quarried area was eventually filled in, probably in the late first or early second century. This may have been because the Roman settlement was expanding and land was needed for buildings, as evidenced elsewhere in north Southwark. At Hibernia Wharf, however, any building levels had been removed by Victorian cellars. Two unusual finds from the fills of the quarry were part of a glass bowl and a bronze lid and handle.
Saxon and medieval: The earliest post-Roman activity consisted of three rectangular timber-lined pits, at least one of which seems to have been late Saxon. This has been supported by dendrochronological determination of late 10th century. The organic fills of these pits, which may have been
cesspits, provided environmental data. The main feature excavated was a linear channel, about 4m wide and apparently man-made, which crossed the site from south-east to north-west and lying at the bottom of the channel was a wooden paddle. This cut the late Saxon pit, but was partly silted up by the eleventh century, and so may have been dug some time in the tenth century. St. Mary Overy's Dock is still in existence along the west side of Hibernia Wharf and documentary evidence suggests that it dates from at least the early medieval period. The excavated channel must therefore have either been part of the dock or have fed into it. The presence of these late Saxon/early medieval features tends to confirm the documentary sources, which suggest that a bridgehead settlement was already in existence in north Southwark at the time of the Norman conquest.

Post-medieval: The only post-medieval feature surviving was the base of a small chalk and brick-walled cellar, possibly sixteenth century, and aligned on modern Clink Street, known from map evidence to have been in existence from about that date. George Dennis for S & L Arch. Comm.

The Roman Flue-Tiles from Ashtead

Dear Editor,

Re Bulletin 167, bottom of p.7. Partly owing to family connections with the district Lowther was a member of the Cumberland and Westmorland Archaeological Society, which may account for the Ashtead replica being where it is. He kept another copy on his mantelpiece, and many others must have been sold by the pottery.

Yours sincerely,

T. E. C. Walker

J. Anstee Esq.,
Museum of Lakeland Life & Industry,
Kendal,
Cumbria.

Dear Mr Anstee,

I am writing to you as Chairman of the Leatherhead and District Local History Society and Executor of the Will of the late A. W. G. Lowther.

I note your comment in the Surrey Archaeological Society Bulletin for August 1980 with regard to the Roman Relief patterned flue-tiles. The origin of the replica, of which I believe only five or six copies were made, one of which is with the Surrey Archaeological Society and of which I hold one myself, was that on the excavation of the Roman Villa and Tile Works at Ashtead, Mr Lowther found this ding and stag impression on one of the tiles. At that time, the Ashtead Potteries were in being, which was an organisation to give employment to ex-servicemen from the first World War, and Mr. Lowther had a mould of the impression and the five or six replicas were made from this mould, and a roller was not used to make the impression. Mr Lowther, who I had known since 1946, told me of the origin of these replica tiles on several occasions.

Yours sincerely,

It is felt that members may be interested in these letters.

Hon Bulletin Editor
LITERARY SECTION

GUILDFORD DIRECTORIES
The Society’s Library possesses a very long run of Guildford Directories dating from 1839, some of which are now the only known copies available. We were fortunate recently to receive a grant from the British Library towards their binding. However, we do have several gaps in our holdings, especially from the 1920’s onwards. We would be very interested to hear from members who have directories in their possession even the quite recent Kelly’s Directories, which they might be willing to pass to the Society. The Guildford Muniment Room has also started to build up a run of Guildford Directories and is equally interested in acquiring years it lacks.

Please contact in the first instance, the Assistant Librarian on Guildford 32454 any morning except Thursdays.

MEETINGS

Important: Date corrections

SEPTEMBER
Sunday 14th Visit to Cotswold Farm Park NOT 4th September.
Monday 22nd Boneworkers meeting at Staines NOT 28th September.

SEPTEMBER
Thursday 11th
“Sarah Huggett and ‘Uncle’ Day: Low Life in the Croydon Lodging Houses”, a talk by Dr R. C. W. Cox at All Saints Parish Church Small Hall, Onslow Gardens, Sanderstead (top of Sanderstead Hill), at 8 p.m. Proceeds in aid of the Church Extension Appeal Fund.

OCTOBER
Wednesday 1st
“THE ARCHAEOLOGY OF CHEAM AND WHITEHALL” an illustrated talk by Mr Norman Nail, Chairman of the Nonsuch Antiquarian Society to be given to the Society at St. Mary’s Church Hall, Ewell at 8.00 p.m. Admission 20p including refreshments. All welcome.

Friday 24th
“ROMAN CITIES AND THE OASES OF ALGERIA”. Illustrated talk by Lennox Manton to Guildford members of the Surrey Archaeological Society at the Guildford Institute, Ward Street at 8 p.m. Visitors welcome.

NOVEMBER
Wednesday 3rd
“HADRIANS WALL”. An illustrated talk by Miss Eve Myatt-Price, MA in Social History and Certificate in Archaeology, to be given to the Nonsuch Antiquarian Society at St. Mary’s Church Hall, Ewell, at 8.00 p.m. Admission 20p, including refreshments. All welcome.
Saturday 8th
DOMESTIC BUILDINGS RESEARCH GROUP (SURREY) ANNUAL LECTURE, HORSHAM. 10.45 for 11.15. Lecture by John Warren, M.Litt., RIBA, ERTPI, on The Eastern Influence on Gothic Architecture, at his home, Parsons Farm, Kerves Lane, Horsham, Sussex (TQ 175278). John Warren has travelled extensively in the Middle East. Picnic lunches may be eaten at Parsons Farm.
2.15 Sands, Warnham, a fine Wealden House by kind invitation of Dr and Mrs Dale.
RSVP: Mrs Monie, Tile House, Westcott Street, Westcott, Dorking, Surrey. Dorking 5556. Any member of the SAS is welcome.

NEW STUDY SUBJECT

Flint Tool Research
The relative lack of prehistoric research carried out in the country in recent years has led to the suggestion that in the first instance a Lithic Tool Studies Group be established. Initially the purpose of such a group would be to encourage and stimulate research in the field of flint and stone tools, though the possibility exists that the group may be extended to cover all aspects of prehistory in Surrey.
Any member interested is invited to contact the writer at 95 Mount Road, Chessington, Surrey.

David Field

COURSES

Industrial Archaeology. At the University of Surrey for the Dept. of Adult Education. 11 lectures on alternate Tuesdays starting on 14th October from 7.30 to 9.30 p.m. Walks or tours will be included on following weekends in some cases. Information from Mrs Gwen Potter, Dept. of Adult Education, University of Guildford, Surrey, GU2 5XH. Fees to members of SAS £2.50; others £5.00.

Archaeology of Celtic and Saxon Times. At the County School Farnham Road, Guildford arranged by the W.E.A., Guildford. 20 lectures commencing Tuesday 23rd September from 7.30 to 9.30 p.m.. Tutor: Mrs V. Ettlinger. Enquiries to the Secretary for W.E.A., Guildford, Mrs C. Lester, New House, Old Kiln Close, Churt, Farnham. Tel: Headley Down 712060.

The Archaeology of Medieval England. At Hollyfield School, Hollyfield Road, Surbiton sponsored by Kingston & Surbiton W.E.A. Lectures on Thursdays from 7.15 to 9.15 p.m. starting September 25th. Tutor: Mrs P. Nicolayson. Enquiries to the Secretary, W.E.A. Kingston & Surbiton, Tel: 393 4370.
Bourne Society Courses

East Surrey Explored. At Caterham Valley Centre, Beechwood Road, Caterham. 10 lectures on Wednesdays from 7.30 to 9.30 p.m. by James Batley starting September 24th. This subject covers historic villages.

Surrey People. At Caterham Hill Library, Westway, Caterham on the Hill. 10 lectures by James Batley on Tuesdays from 7.30 to 9.30 p.m. starting on September 30th. This subject covers prominent historic people.

Stately Homes in Southern England. At Taunton Manor School, Coulson. 20 lectures by Charles E. Pringle from 7.30 to 9.30 p.m. on Tuesdays starting on September 30th. Enrolment at this Centre on September 20th or on first evening. This subject covers Royal Palaces and National Trust Houses.

Our Villages. At Gresham School, Sanderstead. 10 local speakers chaired by Dorothy Tutt, Secretary of the Bourne Society from 7.30 to 9.30 p.m. starting September 30th. Enrolment on September 20th or on first evening. This subject covers the historical development of East Surrey Villages.

CORRECTION !!

Please note the following course was incorrectly announced in Bulletin 167: Surrey in Tudor and Early Modern Times
At Reigate Sixth Form College, Church Street, Tuesdays 7.30 to 9.30 p.m. starting 16th September. Tutor: D. J. Turner. Sponsored by Reigate and Banstead Adult Education Institute. Contact: Principal, Miss A. Wright, 53 High Street, Horley, RH6 7BW (Tel: Horley 5935).

UNIVERSITY OF LONDON COURSES 1980/81

Diploma in Archaeology

The diploma provides an opportunity for students to gain skill and insight into the subject in a more systematic way.

Each course consists of 28 meetings including four field visits.

Students are strongly advised to follow the proper sequence of courses.

Students attending classes at the Institute of Archaeology will be expected to follow the recommended order.

One of the course options 4, 5, 6 or 7 should be taken as the final year.

Students will be required to take part in practical field work at an approved excavation for at least four complete weeks during their study for the diploma.

All courses at the Institute of Archaeology, Department of Extra-Mural Studies and Extra-Mural Centre are Central courses.

Accepted applicants for Central Courses in archaeology will be notified after 1st September.

The Archaeology of Palaeolithic and Mesolithic Man (Course 1)

J0101 Tuesday, 23rd September, 6.30. £13. D. M. Collins, MA. Institute of Archaeology.
J0102 Wednesday, 1st October, 6.30. £13. M. Hemingway, BA,PhD.
Institute of Archaeology.
J0103 Monday 22nd September, 7.30. £13. D. M. Collins, MA. Mary
Ward Centre.
J0105 Wednesday, 17th September, 6.30. £13. M. S. E. Webb, BA, MSc.
Morley College.

The Archaeology of Western Asia (Course 2)
J0205 Tuesday, 7.00. £13. Miss D. P. M. Collon, MA, PhD. Addison
J0206 Monday, 15th September, 7.00. £13. Miss R. L. Harris, BA.
Goldsmiths’ College.
J0203 Thursday 25th September, 7.30. £10. D. Price-Williams, PhD.
Hampstead Garden Suburb Institute.
J0201 Tuesday, 23rd September, 6.30. £13. D. Price-Williams, PhD.
Institute of Archaeology.
J0202 Monday, 22nd September, 6.00. £13. D. S. Noble, MA, PhD.
Mary Ward Centre.
J0204 Wednesday, 17th September, 6.30. £13. D. Price-Williams, PhD.
Morley College.
J0207 Wednesday 24th September, 7.15. £16. Miss R. L. Harris, BA.
Richmond Adult College, Parkshot, Richmond, Surrey, TW9 2RE.

Prehistoric Europe (Course 3)
J0301 Wednesday, 1st October, 6.30. £13. Miss S. D. Hamilton, BA.
Institute of Archaeology.
J0302 Monday, 22nd September, 8.00. £13. Miss S. D. Hamilton, BA.
Mary Ward Centre.
J0304 Tuesday, 23rd September, 10.00 a.m. £13. Miss S. D. Hamilton,
BA. Mary Ward Centre.
J0303 Wednesday, 17th September, 6.30. £13. R. T. Schadla Hall, MA.
Morley College.

Egyptology (Course 4)
J0401 Monday, 29th September, 6.30. £13. E. P. Uphill, MA. Institute
of Archaeology.

Prehistoric Britain (Course 5)
Institute of Archaeology.

Roman Britain (Course 6)
J0601 Wednesday, 17th September, 6.30. £13. H. Sheldon, BSc. Morley
College.

Environmental Archaeology (Course 7)
J0701 Tuesday, 30th September, 6.30. £13. A. J. Legge, MA. Extra-
Mural Department.

Post diploma courses in archaeology
Post-diploma courses are intended to introduce students to the problems of
analysis on excavated materials. Space may be limited in some cases and
regular attendance is essential. Previous experience of the subject (e.g., botany) is not essential. Several research investigations are in progress in these courses.

Animal Bones in Archaeology (Advanced Course)

Human Skeletal Remains in Archaeology
J3102 Wednesday, 1st October, 6.30. £13. Miss T. Molleson, PhD. Extra-Mural Department.

Animal Bones in Archaeology
J3103 Thursday, 2nd October, 6.30. £13. Mrs D. Serjeantson, MA. Extra-Mural Department.

Plant Remains in Archaeology
J3104 Monday, 29th September, 6.30. £13. R. Hubbard, MA., MPhil. Institute of Archaeology.

Certificate in field archaeology
This three-year certificate combines lectures and demonstrations of field work, with a study of man in SE England.
Each course consists of 28 meetings, including four field visits.

Field Archaeology and the Pre-History of SE England (Course 1)
T0104 Wednesday, 24th September, 7.30. D. E. Williams, BA. Barnet College of Further Education, Wood Street, Barnet.
T0101 Wednesday, 17th September, 7.00. £13. P. Craddock, PhD., FSA. Goldsmiths' College.
T0105 Tuesday, 30th September, 7.30. Ms E. Webb, BA, MSc. Sidcup Lamorbey Park Adult Education Centre.
T0102 Tuesday, 23rd September, 7.15. Mrs D. Serjeantson, MA. Surbiton Adult Education Centre, Surbiton Hill Road, Surbiton.
T0103 Tuesday, 23rd September, 7.30. £13. P. Craddock, PhD, FSA. The City Lit.
T0202 Monday, 29th September, 7.30. £13. Miss O. S. Farrington, BSc Coombe Cliff Centre, Coombe Road, Croydon.

Field Archaeology and the Romano-British Period in SE England (Course 2)
T0204 Thursday, 18th September, 7.30. £13. H. Sheldon, BSc. The City Lit.
